P riod for Reply							
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-8 are pending in the instant application.

Acknowledgement is made of Applicant's amendment dated October 5, 2001.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

1. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Fournier(U.S. Pat. No. 3,818,911).

Fournier teaches applicators for liquid or semi-solid compositions. The applicators can consist of a base member, a support member, and a polymeric foam material (col. 4, lines 41-50). The polymeric foam can be provided with annular convoluted folds which extend downwardly to increase the surface area. The applicator can be supplied with pre-impregnated therapeutic and non-therapeutic compositions (col. 5, lines 4-6). When employed as a double surface applicator, removable foam layers can be used; detached and reimpregnated with any desired liquid or semi-solid composition. A double surface applicator can also be refilled with new cured polymeric foam layers (col. 8, lines 15-20).

Response to Arguments

2. As Applicant has cancelled claim 9; the rejection under 35 U.S.C. 101 is withdrawn.

Application/Control Number: 09/622,094

Art Unit: 1616

- 3. As Applicant has cancelled claim 10, the rejection under 35 U.S.C. 112 is withdrawn.
- 4. Applicant's arguments filed October 5, 2001 have been fully considered but they are not persuasive based on the following reasoning:

Applicant argues that Fournier teaches that the support member is detachable narrow shaft and not the polymeric foam material, in comparison to Applicant's amended claims whereby the dispenser is fixed such that the central aperature slides over a portion of the support structure. This argument is faulty as Fournier clearly teaches in one embodiment (double surface applicator) that the foam layers may be removable and replaceable. Further, the foam layers can likely be detached and reattached via a central aperature because that is how they are attached to the shaft.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the feature upon which applicant relies (i.e., the sustained release of drugs over a period of time) is not recited in the rejected claims. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert M DeWitty whose telephone number is 703-308-2411. The examiner can normally be reached on 9:00am - 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jose Dees can be reached on 703-308-4527. The fax phone numbers for the organization where this application or proceeding is assigned are 703-308-7924 for regular communications and 703-308-7924 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-

1235.
